They are a talented and anointed group of young people who are leading the way in these times by having a heart for, and reaching out to children.

## HOSTS OF THE EVERYTHING KID'S MINISTRY CONFERENCE

### NEVILLE AND GAIL FANNIN

Neville and his wife Gail are missionaries who work towards the cause of children in Africa. They were the Directors of Jackson's Ridge Children's Ministries Training Centre for 15 years and have gone on to begin their own ministry called "Everything Kid's Ministry." They and their team travel extensively across sub-Saharan Africa to assist and support churches, church leaders and parents with children's ministry training. One of their greatest desires is to help our fathers "turn their hearts back to their children" which they do through running parenting seminars. This greatly assists the local church body to raise the level of ministry to children in the church and their communities.

In addition to this they run a variety of camping programs for children, including Royal Family Kids' Camps which is a program for children whose lives have been devastated by abuse and neglect. The main focus of each camp is to lead each child into God's presence and facilitate a life changing experience. They run the head office for Royal Family Africa and are the designated training centre for Royal Family Kid's Camps and Teen Reach Action Camps. They are also a training facility for DCPI which plants churches, especially focusing on the children as the springboard.

They have been ministering to children for over 35 years and their hearts burn with a passion to introduce children to Christ and to lead them to an authentic deeper walk with their Saviour. They advocate strongly for parents to disciple their children in their homes and believe that the Lord charged the whole community of believers to be involved with children's spiritual growth.

They develop and provide a wide variety of resources for children's ministers to support them to teach the Bible in a fun and exciting way. These resources include curriculum, puppets, illusions, visual aids, crafts and so much more.
